Department of Agricultural Engineering

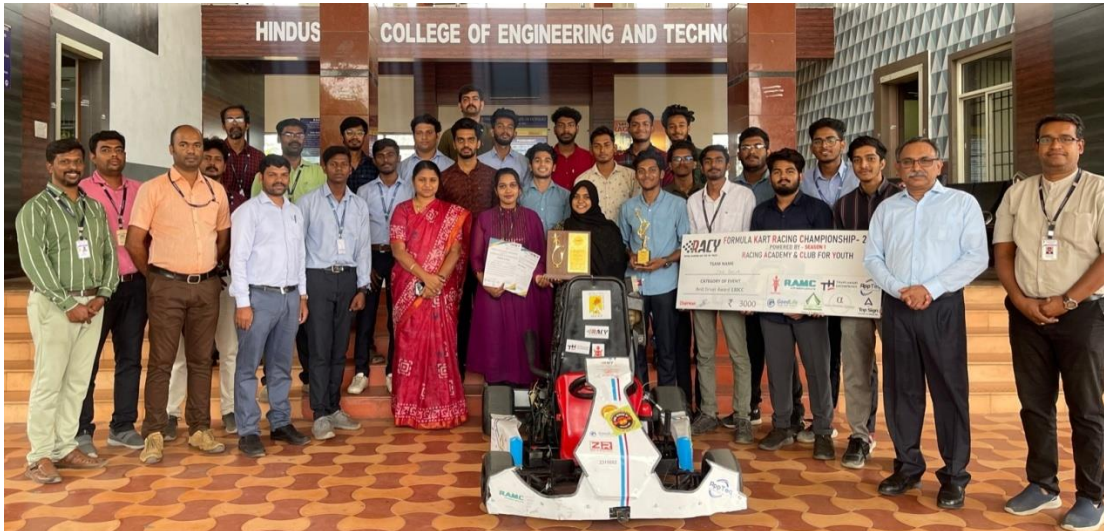

Achievements.....

Department of Agriculture Engineering has conducted National Level Technical Symposium “KORSHAN” and Farmers Session on 25th and 26th of May, 2022. Our department welcomed more than 150 other college participants and more than 50 farmers all over India to the symposium, hosted with government officials, students, industry experts and farmers. The farmers’ session helped in bringing farmers, students, government officials and department on a common platform for better coordination in future, which will ultimately help in reaping good results.
