New Product Challenges:

- Risk Mitigation
- Complexity of the Product
- Increasing number of stakeholders
- 30 to 45% of new products fail to deliver any meaningful financial return. This typically happens due to a number of reasons, from poor product/market fit, failure to understand customer needs, to a lack of internal capabilities
- Ineffective Marketing Strategy
- Incomplete market & product protocol before product development starts
- Not satisfying customer needs on critical factors
- Bad timing
- No operational access to buyers
