Members (Students)

I Year students are main part of **SCIENCE CLUB**. Few interested students from higher class are also encouraged and motivated for their interest on the relevant topics.

Term: Two Years

Objectives

1. To stimulate the students in engineering knowledge of the recent trends in scientific knowledge
2. As a part of our club activity we are going to guide the students to prepare and present in various workshops and conferences.
3. Every year on February 28th, Science Day is celebrated on our college campus to commemorate Sir C.V. Raman's announcement of the discovery of the Raman Effect, for which he was awarded the Nobel Prize in 1930.
