

Department of Aeronautical Engineering

Thermodynamics Laboratory

S.No.	NAME OF THE EQUIPMENT
1.	Parallel and counter flow heat exchanger test rig
2.	Bomb Calorimeter
3.	Vapour compression refrigeration test rig
4.	Conductive heat transfer set up
5.	Composite wall - Conductive heat transfer set up
6.	Vapour compression air-conditioning test rig

Refrigeration test rig

Conductive heat transfer set up

Air conditioning test rig
