Words from the Editor-in-Chief

Dear Staff Members,

Wishes!! As the Head of the Department of Computer Science and Engineering, with much pleasure and privilege I take pride in releasing the Department Newsletter “Nouvelle™ — a quick retrospect of the department for the academic year 2022-2023. I whole heartedly thank the Management and the Principal for the trust reposed on me in our continued effort to provide the finest service and support to our students. The Department of Computer Science will always be a beacon of light in guiding the students to achieve academic excellence, and ultimately enable them to fulfill their ambition. In view of this the Department conducted various events for the benefit of both Student and Staff community. This newsletter serves up the summary of various activities and achievements of the department for the current academic year.

CONTENTS

1. Dept vision, Dept Mission
2. Dept PEOs, Dept PSOs
3. Events organized
4. Visits of Experts
5. Student participation in important events outside college
6. Participation of Faculty members in events outside college
7. Sports activities
8. Awards and Recognition of Staffs and Students

Dept vision, Dept Mission

Vision

DV: To excel in developing technologically superior, highly competent and socially conscious professionals in computer science and engineering with cutting-edge research skills.

Mission

DM1: To equip the students with technical knowledge and expertise essential for success in their professional career.

DM2: To develop highly qualified and creative computer science and engineering professionals proficient in cutting-edge technologies with leadership qualities.

DM3: To empower students to develop innovative solutions for industrial and societal challenges upholding ethical values.

Program Educational Objectives (PEOs)

PEO1: To acquire knowledge in the latest technologies and innovations with an ability to recognize, analyze, and solve problems in computer science and engineering.

PEO2: To develop highly skilled computer science and engineering professional proficient in latest technologies with leadership qualities.

PEO3: To empower students to create innovative solutions for industrial challenges that meet societal needs.

Program Specific outcomes (PSOs)

PSO1: An ability to utilize modern tools and techniques for efficient system design and implementation for computer-based systems in solving engineering problems.

PSO2: An ability in developing robust and secure software systems for diverse applications.
